

CARIBBEAN ASSOCIATION OF BANKS

Keeping the Industry Proactive, Protected and Profitable

Wendy Delmar
CEO

MESSAGE FROM THE DESK OF THE CEO

Wishing you all a very happy and prosperous 2022

As we begin the new year, let us ponder on all the blessings we have received for the year.

The start of a new year often brings sentiments of hopefulness and promise, and I am certain that this year is no exception. As we begin 2022, I find myself feeling immensely grateful to simply be present and in this moment given all that has transpired over the last two years. I know that many of us have been stretched and challenged beyond belief within the past 24 months however, these very circumstances have acted as a catalyst for significant positive change at both the personal and professional levels.

Within the region's industry there has been an unprecedented uptake in the use and incorporation of financial technology. Understandably, with this development, movement by way of changes to requirements within the regulatory framework is anticipated. The CAB will closely monitor these changes as they occur. Nevertheless, these recent events have proven yet again, the tremendous resilience of the region's industry to weather storms and the corresponding ability to respond to unforeseen challenges with creativity and agility.

As we set course for 2022, I wish to express my sincere best wishes to all. May the upcoming months be filled with opportunities for further growth and development, moments of levity and above all good health and contentment.

Please continue to stay tuned to all our social media pages for updates and announcements of all CAB events and content as we continue to work together for the betterment of the region's industry.
